Land Use Oversight and Policies

Residential Infill Project (RIP)

- Comment letter was approved by the Board and submitted to the Planning and Sustainability Commission (PSC). The comment period was extended to Friday.
  - Dan shared that he testified in person at a PSC hearing. He has concerns about the proposed rezone from R-5 to R-2.5 for parts of Beaumont and Concordia; otherwise he is supportive.
- Discussed how FAR (floor area ratio) is calculated and the proposed new height measurement, both of which will help to reduce the scale and bulk of new infill development.
- Discussed ADU’s (accessory dwelling units) and how under the RIP there could be two on a property, and the related recent City adoption of rules to retain the SDC (systems development charge) waiver for ADU’s that will not be used for short-terms rentals.

Better Housing By Design (BHBD)

- Proposal to update the regulation of non-single family zones – R3, R2, R1, RH.
- The comment deadline on the discussion draft is coming up. The PSC hearing is scheduled for June 12, 2018.
- Development was previously regulated by lot size.
- Moving toward FAR to regulate size instead of number of units.
- Since the LUTC hasn’t reviewed and discussed yet, agreed to not make a formal recommendation to the Board. Individuals were encouraged to review and comment on their own or request the Board take action.

Transportation

Proposed TriMet Bus Barn/Depot on Columbia

- TriMet is in negotiations for property for a new bus barn/depot on Columbia at 47th (old Caterpillar site).
• They’ll be making site upgrades and will have a design and construction process. Site already has a diesel engine shop.
• CNA has generally expressed concerns about diesel pollution and air quality in the neighborhood, which were shared with TriMet.
• TriMet’s long-range plan is to convert the fleet to electric buses; currently use biodiesel, which is less polluting than regular diesel and emissions from off-road vehicles, like construction equipment.
• Committee discussed the proposed new bus line concept along Prescott and Alberta from Rose City Park to downtown.
  o It’s not necessarily tied to moving Line 72 off of NE Alberta St.
• Recent legislative approval of payroll tax increase is a potential funding source, but has strings attached and is currently being discussed by legislative oversight committee.
  o Opportunity to advocate that funds be spent on fleet electrification at upcoming TriMet workshops and via a poll, which will be publicized in the CNews.

**Bicycle Network – “20’s“ Bikeway**

• In CNA it’s on 32nd Ave.
• Asked City for diverters at major cross streets, like Prescott, Alberta, and Killingsworth, to reduce cut-through vehicle traffic, but they weren’t installed. There has been increased car traffic on NE 32nd.
• Tyler wrote a follow up article for CNews.
